

IN THE SPECIFICATION

Page 1 through Page 2 line 5:

The present application is a non-provisional application of provisional application number 60/418,765, filed October 15, 2002, having the same title.

{a}The present application is also a continuation-in-part application of

(a) co-pending U.S. Patent Application number 10/086,954, filed March 1, 2002,

entitled "Visualization Supplemented Wireless Mobile Telephony", which claims priority to provisional application 60/313,247, filed Aug 17, 2001. The

'954 application is a continuation-in-part application of copending U.S. Patent Application number 09/767,587, filed January 22, 2001, entitled "A Wireless Mobile Phone with Morse Code and Related Capabilities";

(b) copending U.S. Patent Application number 09/767,197, filed January 22, 2001, entitled "A Wireless Mobile Phone with Key Stroking Based Input Facilities";

(c) copending U.S. Patent Application number 10/087,098, filed March 01, 2002, entitled "Method and Apparatus For Personalizing Mobile Electronic Devices Including Interchangeable Coverings with Embedded Personality" (which itself is a non-provisional application of provisional application number 60/306,326, filed on July 17, 01, with the same title); and

(d) co-pending U.S. Patent Application number 09/908,118, filed July 17, 2001, entitled "Method and Apparatus For Facilitating Luminescent Displays Utilizing A Wireless Mobile Phone".

The specifications of these applications are herein fully incorporated by reference.
